Sendai Framework for Disaster Risk Reduction (UNISDR UNDRR)

Sustainable Development Goals (UNGA)

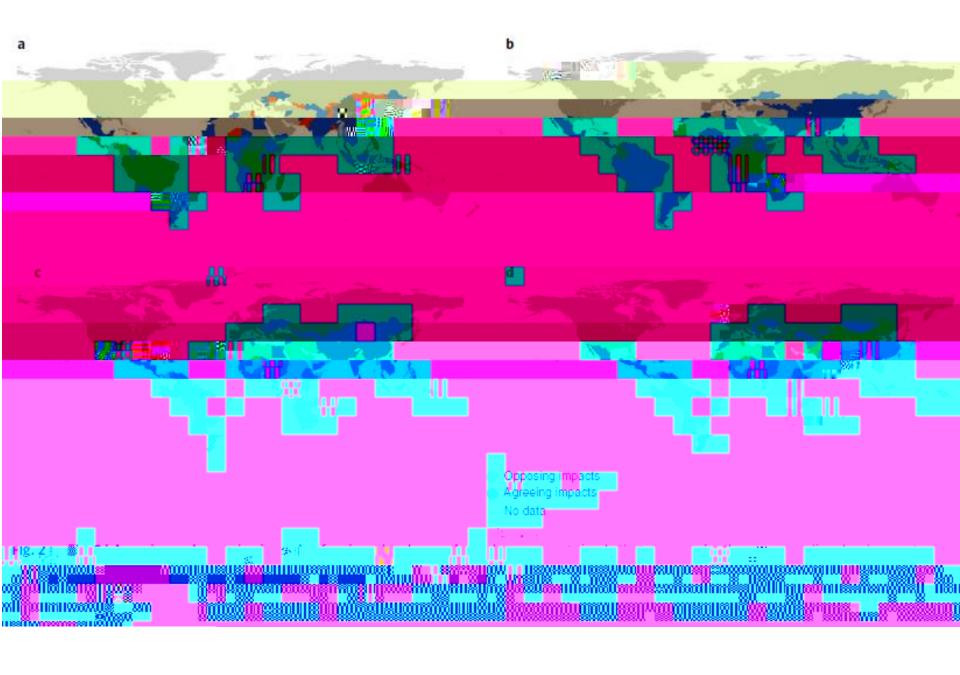

The Paris Agreement (UNFCCC)

	Sendai Framework UNISDR (UNDRR)	2030 Agenda UN GA	Paris Agreement UNFCCC
Vulnerable Vulnerability	: conditions determined by factors & processes	the poor & the poorest	: impacted by climate change
Resilience	an outcome target = ability to resist, absorb, accommodate to and recover from hazards	quality to be strengthened/ built tool to help people cope with shocks and stresses	a characteristic to be built / strengthened process in response to dimate change
Equality	used only once, inequality as a driver of disaster risk	gender equality global inequalities	used only once, in reference to gender
Equity	used only once, gender	focus on access and benefit-sharing	differentiated responsibilities sustainable development and poverty eradication
